

ENERGY STAR Ratings

To meet ENERGY STAR requirements, Initial Solar Reflectivity must be .25 or greater, and 3-year test rating must be .15 or greater. This is for roofs greater than 2:12 pitch. For roofs 2:12 and below, please contact Central States for a list of qualified products.

Color	Paint Code	Initial Solar Reflectivity	3-Year Solar Reflectivity	Initial Emmissivity	SRI Value	Registered ENERGY STAR
