

# WEATHERTIGHT WARRANTY GUIDELINES

Central States Manufacturing Inc. will offer two levels of protection “ CLASSIC and ELITE” for weathertight warranties as outlined below.

## **CLASSIC**

- The CLASSIC warranty carries a 20-year term covering the panel, clips, and related hardware.
- The roofing contractor/installer will be responsible for the first 24 months after substantial completion of the roof.
- Construction drawings must be reviewed by the Commercial Sales Group in Lowell, AR prior to issuance
- A jobsite inspection is not mandatory but may be required based upon the drawing review. An on-site inspection will be an additional charge.
- A crew experienced in trapezoidal panel, or certified by MBCI or another entity, or trained by Central States must install the material.
- Material invoices must be paid in full before the warranty is issued

Cost of the CLASSIC warranty is as follows:

- Warranty cost is per square foot of coverage with a minimum charge. Please check with your sales representative.
- Liability maximum for CSMI of 20 cents per square foot

## **ELITE**

- The ELITE warranty carries a 20-year term covering the panel, clips; related hardware and CSMI produced flashings. No other products will be covered unless approved by CSMI.
- The roofing contractor/installer will be responsible for the first 24 months after substantial completion of the roof.
- Construction drawings must be reviewed by the Commercial Sales Group in Lowell, AR prior to issuance
- A jobsite inspection is not mandatory but may be required based upon the drawing review. An on-site inspection will be an additional charge.
- A crew experienced in trapezoidal panel, or certified by MBCI or another entity, or trained by Central States must install the material.
- Material invoices must be paid in full before the warranty is issued

Cost of the ELITE warranty is as follows:

- Warranty cost is per square foot of coverage with a minimum charge. Please check with your sales representative.
- Liability maximum for CSMI of 32 cents per square foot

## **WEATHERTIGHT WARRANTY GUIDELINES, CONT.**

### **General Conditions**

All materials used to produce the roof panels and flashing must carry a 20-year material and finish warranty from the coil and paint producer.

At CSMI's discretion, a jobsite inspection may be performed before issuing the warranty, which will be a fee in addition to the cost of the warranty.

Any attempts to repair leaks with exterior sealing such as surface caulking or coating are only temporary in nature and offer no long-term solution. The use of these repair techniques will void the warranty.

**ALL ROOF APPLICATIONS MUST MEET MANUFACTURER'S SPECIFICATIONS OR ACCEPTABLE INDUSTRY STANDARDS.**

All invoices that pertain to the project and the warranty must be paid in full before issuance of a weathertight warranty.
