

Horizon-Loc™

Roof Panel

**CENTRAL
STATES**
MANUFACTURING, INC.

Horizon-Loc™ is a durable concealed fastener roof system with easy snap together installation. This architectural panel system uses minimal visible fasteners, giving your building a clean, attractive finish. The panel's easy snap-on ribs attach rapidly with no hand seaming, so installation is less expensive than traditional standing seam. Horizon-Loc™ is ideal for use in residential and light commercial applications. And because it is rated UL 790 and UL 2218 for durability, insurance rates for this product may be lower to save you money.

Metal roofing will not rot, mildew, warp, split, or crack, and cannot be damaged by termites or other pests. With proper installation, Horizon-Loc™ metal roofing will require very low maintenance over the life of the roof.

Horizon-Loc™ Features:

- Aesthetically pleasing without any visible fasteners.
- Easy snap together installation.
- Warranties on both the paint and substrate.
- Maintenance-free material.
- Installs over solid decking with 30lb. felt paper or equivalent.
