valspar®

Check our website to verify which colors meet ENERGY STAR® requirements for steep slope roofs.

* Copper Metallic panels must be installed in the same direction. See directional arrows or stickers provided on your panels. Color variation between orders is normal and not cause for rejection. Copper Metallic has a 20-year Perforation Warranty.

Colors on this chart are close representations of actual metal color, limited by printing and viewing conditions. Color matching is optimized for outdoor viewing.

Choose CentralGuard[®] with Fluoropon for the best fade protection.

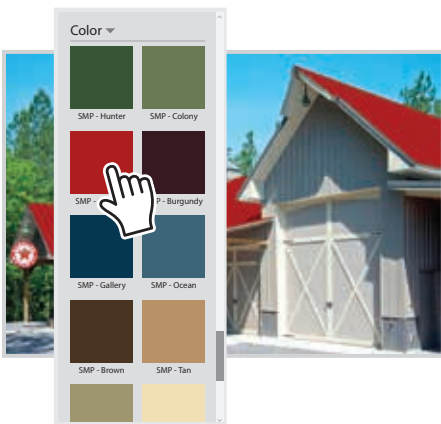

CentralGuard is our specific combination of everything that goes into making the highest-quality metal panels. Available on our Prime and Prime Fluoropon panels, the CentralGuard name is a guarantee that you have the best protection and a lifetime paint warranty.

Fluoropon 70% PVDF is the undisputed champion for color fade protection. It offers unsurpassed resistance to damaging UV rays. Colors will remain vibrant and will not pit or whiten when exposed to moist environments such as rain, dew, fog, acid rain, and chlorinated air.
