All colors except Matte Black meet ENERGY STAR® requirements for steep slope roofs.

* Copper Metallic panels must be installed in the same direction. See directional arrows or stickers provided on your panels. Color variation between orders is normal and not cause for rejection.

Colors on this chart are close representations of actual metal color, limited by printing and viewing conditions. Color matching is optimized for outdoor viewing.

CentralGuard® with Fluropon® outperforms other paint systems year over year.

CentralGuard is an advanced system engineered by Central States, to protect our metal against fade, dent, and rust. It combines the durability of ceramic and select inorganic pigments with the strength of a proprietary silicone polyester resin to deliver a durable finish, no matter the weather.

- Ceramic pigments are practically unaffected by acid rain and pollution.
- They resist color fade even in the most hostile environments.
- Silicone polyester resin resists dirt, staining and abrasion.
- Excellent fade and chalk resistance.

	Brand New Roof Just installed. Perfect color match.	After 7 Years No noticeable color change. Still looks new.	After 15 Years Still no apparent color change. Curb appeal is still strong	After 22 Years Minimal color change. Your home still looks great.	After 30 Years Still barely noticeable. Roof will look great for years to come.
