

Perforated Soffit

Perforated Panel-Loc Plus™ Panel

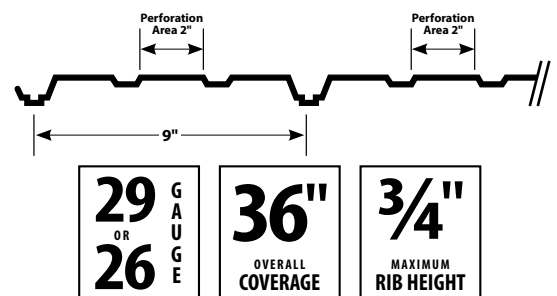

Superior ventilation designed for *easy installation*

Perforated soffit panels provide the same durability of Panel-Loc Plus™ with the added benefit of ventilation. Available in 26-gauge and 29-gauge metal in lengths from 12" to 10', this panel provides three feet of coverage to help with easy installation. It is perfect for residential and light commercial projects.

Available in Prime or Standard paint systems, or acrylic-coated bare material to meet the needs of the project.*

- Unique lap groove hides the overlap, giving a smooth, clean appearance.
- Net free area is 5.376 in² per linear ft.
- 29 gauge part number: PERFP(color)+
- 26 gauge part number: PERFHR(color)+
